## *Press Release*

**FOR IMMEDIATE RELEASE**  
**2021 November 27**

### **Fuel Contractor Truck Fire Quickly Extinguished**

*Ref: NP - 2021 /11 / 27*

NP can confirm that at approximately 1:30pm today, Saturday 27<sup>th</sup> November 2021, a fire, which occurred in the manifold of a Road Tank Wagon (RTW) owned and operated by a fuel haulage contractor, was quickly extinguished by one of NP's employees. The incident occurred at NP's Sea Lots, Port-of-Spain compound and in keeping with established HSSE procedural guidelines, the Trinidad and Tobago Fire Services were immediately contacted and a fire tender from the Wrightson Road, division was immediately dispatched to the scene.

At this time, the fire has been fully extinguished, with no reports of injury and the Company's Emergency Response personnel are conducting investigations to determine the cause of the fire. NP wishes to thank Fire Services for their prompt response and assures the public that our operations are running as normal with a continuous and reliable supply of fuel.

NP remains focused on ensuring the timely delivery of fuel by land, by sea and by air to our service station network; airports in Trinidad and Tobago; industrial customers including the Port Authority; all hospitals; and all the protective services.
