Beetham Landfill Smoke Suspends Sales At NP's Sea Lots Office

Trinidad & Tobago National Petroleum Marketing Company Limited (NP) wishes to inform the public that Wednesday's fire at the Beetham landfill continues to affect its operations and as a result, sales at its Sea Lots Office have been suspended for yet another day.

While delivery of fuel out of Sea Lots is being conducted as conditions permit, we wish to reassure the public that all efforts are being made to ensure a consistent and reliable delivery of fuel to all service stations.

The Company affirms its commitment as an essential service provider to continue to serve the motoring public.
